FACIAL care

Hydra Serum

30 ml

Super moisturising serum with 1.5% high quality hyaluronic acid of different molecular weights. With active ingredients of vegetable origin that give it excellent properties. Hyaluronic acid counteracts the effect of aging on the skin, in particular the formation of wrinkles, by replacing lost fluid volume and increasing collagen production.

Its activity depends on its molecular weight: Based on the combination of ingredients obtained with an innovative technology, HYDRASERUM combines four plant origin pure hyaluronic acids and biomimetics of different molecular weights.

A perfect synergy that attenuates wrinkles and expression lines and helps to keep skin soft, smooth and luminous.

Ingredients: Aqua, Betaine, Propanediol, Pectin, Hydrolyzed Hyaluronic Acid, Sodium Hyaluronate, Polyglyceryl-4 Caprate, Rosa damascena Flower water*, Ascorbyl Glucoside, Centella Asiatica Extract, Rosa Canina Fruit Oil*, Cucumis Sativus Extract, Glycerin, Citric Acid, Sodium Benzoate, Sodium Levulinate, Potassium Sorbate, Sodium hydroxide.

BODY care

HappyFeet

200 ml / 50 ml

Regenerating and super moisturising cream for dry feet, hard and cracked heels provides visible moisturisation and repair for a pleasant sensation of relief and comfort.

HappyFeet cream is composed of a greasy base consisting of two polyethylene glycol of two polar, water-soluble polyethylene glycols, which are non-occlusive and are easily washed away. No irritants, capacity of adherence and extensibility, biodegradable, biocompatible and non-toxic. And 1.5% hyaluronic acid. The activity of hyaluronic acid is dependent on molecular weight, which is why this product promotes the action of 4 biocompatible HA with different molecular weights; the powerful moisturising effect on the skin's surface, with the ability to penetrate deeper into the skin due to its low molecular weight, creating a plumping effect from the inside out.

Ingredients: PEG-8, PEG-32, Hydrolyzed Hyaluronic Acid; Sodium Hyaluronate.
